

## **Barefoot Solutions Announces Grant Program For California Nonprofits**

### *\$25,000 Mobile Application Prototype Grant to be Awarded to Local Nonprofit Organizations*

SAN DIEGO ([PRWEB](#)) January 07, 2019 -- Barefoot Solutions is pleased to announce its newly established “Tools for Change” nonprofit grant program for 2019. The purpose of the Tools for Change Grant Program is to give a nonprofit in California a free mobile application prototype that will enhance their organization’s reach and impact.

#### Mobile Application Prototype Grant

A panel of judges ranging from civic and business leaders and professionals across the region will select one nonprofit to be awarded a \$25,000 grant that will allow for the design of a fully functional mobile application prototype. Our team of developers will work closely with the winning organization to develop an application prototype to enhance their organization and their work.

“As an agency that has received tremendous support from the Southern California business community, we believe Barefoot Solutions has an obligation to not only provide the best technology available, but also invest in initiatives that enhance the communities in which we operate,” said Hunter Jensen, Founder and CEO.

#### The Grant Process

Interested nonprofit organizations can apply now by visiting <http://www.barefootsolutions.com/nonprofit-grant-program>. All applicants will be considered based upon an application submission form and optional video submission. A panel of judges ranging from civic and business leaders and professionals across the region will select one 501(c)(3) from within the state of California.

“We want to challenge organizations to find a problem that we can solve through technology. We encourage creativity and outside-the-box thinking. ” said Jensen.

#### About Barefoot Solutions

Barefoot Solutions is a national IoT, mobile app and web development firm that takes complex concepts and turns them into sleek and effective web and mobile applications. Founded in 2006 in San Diego, CA, Barefoot Solutions has developed one of the strongest mobile portfolios serving hundreds of medium-large sized businesses.
